Street Medicine Pocket Guide

Protecting health during encampment sweeps

Before Sweeps

- 1. Educate patients about street sweeps, what they can expect, & their rights.
- 2. Proactively develop a relocation plan with patients.
- 3. Plan for loss of communication.
- 4. Provide tools to protect critical documents, medications, & other essential resources.
- 5. Develop "sweep-resilient" medical treatment plans.
- 6. Increase harm reduction efforts.
- 7. Provide more basic necessities.
- 8. Establish communication with relevant authorities to stay informed & advocate for trauma-informed approaches.

During Sweeps -Key Considerations

- 1. Presence or non-presence during sweeps
- 2. Engaging (or not) with law enforcement and officials
- 3. Advocacy for patients: when and how?
- 4. Providing medical & mental health support
- 5. Logistical support: to what extent?

After Sweeps

- 1. Locate displaced patients as quickly as possible.
- 2. Replenish critical survival supplies, including food, water, & harm reduction supplies.
- 3. Reestablish medical treatment plans & replace lost medications.
- 4. Re-establish trust & support patients to process trauma and grief.
